

2024 Volunteer Blitz

What is it?

This is a volunteer week where we will be assisting homes affected by the **June 25th-26th 2021** flooding to remove debris and damaged items. We will also be assisting with small repairs when able.

April 15th-20th

Why should YOU sign up?

Flood affected clients suffer out of sight. Last October, we were able to assist **23 homes**, this time we are hoping to help even more! Climate change has increased the frequency and severity of storms—This Earth Month you could help vulnerable populations who are already being impacted and struggling to recover.

What are other ways you can contribute?

If you are unable to assist with physically lifting items out, we could also use skilled repair volunteers. Other ways to help can also be gift card donations to assist with supplies. Even donated lunches or snacks would help our cause. Most importantly, spread the word!
